THE STORY OF JCB

THE STORY OF JCB IS ONE OF INNOVATION, AMBITION AND SHEER HARD WORK.

From small beginnings building agricultural tipping trailers in 1945, to the global force in manufacturing the company has become today, JCB has constantly pushed the boundaries in our desire to be the best. My father and company founder Joseph Cyril Bamford's motto was, "Jamais content", and that is exactly right – we are never content with our achievements. But I believe that even he would be amazed by what the company has become. Today, we have 22 plants on four continents and more than 750 dealers around the world.

These are exciting times. In just 75 years we have gone from one man in a garage in Uttoxeter to major global brand renowned for its pioneering spirit. All of this is down to our people – a 11,000-strong worldwide force that makes up the JCB family we are so proud of. Our achievements over the past 75 years have been considerable, but at JCB we believe in always looking ahead to the next development, the next level of success. As we speak, JCB is continuing to innovate and push the boundaries in research and development; in particular within the area of sustainability, where energy costs and emissions are becoming an increasingly important purchasing consideration. Many of our customers will need to reinvent their businesses to meet new building standards and emissions legislation, and we will be there to support them every step of the way, as we have always been.

Do take the time to read through the innovation milestones over the decades on the timeline below.

Lord Bamford - Chairman

1949

A MAJOR INNOVATION

In a little less than three years since JCB started, launched Europe's first industrial front-end loader.

1985

BACKHOE BESTSELLER

In 1985 the 3CX Sitemaster backhoe loader was launched and went on to be JCB's biggest-ever selling backhoe.

2010

THE NEW ECO BACKHOE LOADER

JCB unveils its new fuel-cost cutting ECO backhoe loader. The first two machines in union jack colours to celebrate the company's 65th anniversary.

2020

100% ELECTRIC. ZERO EMISSIONS.

JCB's pioneering range of machines are 100% electric with zero emissions, zero compromise on performance and a lot less noise.

1964

JCB'S FIRST CRAWLER EXCAVATOR

was manufactured under licence from Warner Swasey and powered by a Ford engine, while JCB made the undercarriage and excavator assemblies.

2006

RECORD-BREAKING DIESELMAX

The JCB DIESELMAX streamliner was powered by two JCB 444 diesel engines producing an incredible 1500hp, achieved a record speed of 350.092mph on Bonneville Salt Flats in Utah, setting a new world land speed record for a diesel-powered car.

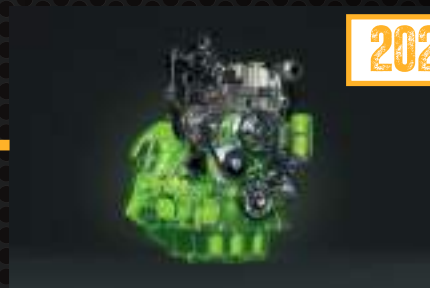

2019

WORLD'S FASTEST TRACTOR

The JCB WFT storms into the Guinness World Records book as the world's fastest tractor with a top speed of 153.771mph (247.470kph).

2023

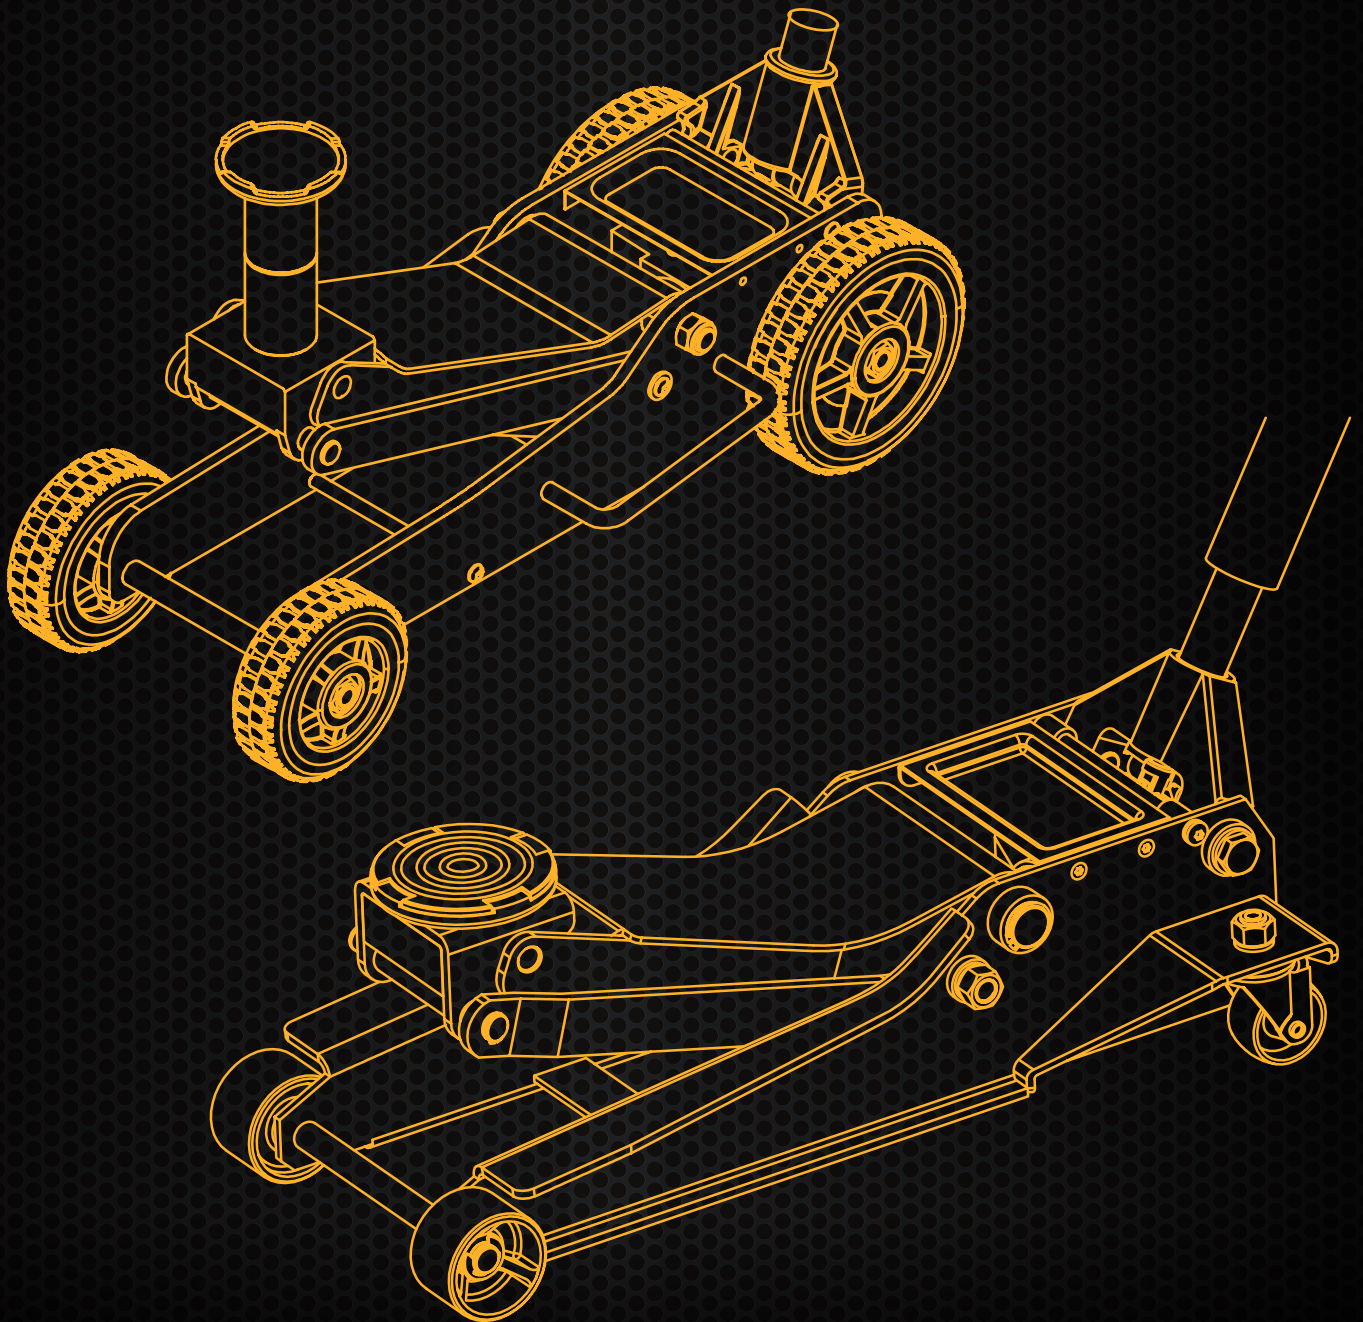

FUELLING THE FUTURE THROUGH INNOVATION

The 50th JCB hydrogen combustion engine came off the production line as part of the development process.
